\* Photoshop CS2 is the latest version and is fully compatible with Photoshop CS3. \* Photoshop CS2 is the current standard for digital design and illustration. \* Not compatible with Macintosh computers. Because most of us use computers as browsers of information rather than creators, Photoshop is seeing a resurgence of interest. With the advent of Photoshop Elements, a stripped-down version of Photoshop (see Figure 1-6"), digital photographers can edit their images, print them, and share them on the Web without the intimidating tasks that usually turn many prospective users away. Figure 1-6. Elements has made it easy for amateurs and professionals alike to edit and create images with speed and ease.

Q: how to get data from Database and save it to ListView? I want to download data from database in JSON and then save it to ListView. In my database I have @Entity @Table(name = "Users") public class User { @Id @GeneratedValue(strategy = GenerationType.IDENTITY) private long id; @Column(name = "Name") private String Name; @Column(name = "Age") private Integer Age; @OneToMany(mappedBy = "user") private List instructions; And after saving data I want to download to listView: public List getUsers(String name) { List users = userRepository.findAll(); return users; } How can I download data from my database to my ListView? A: if you use hibernate or oracle... you can map your map @Type(type="org.jadira.usertype.password.mapping.HashMapUserType") and configure in your domain class: @Column(name = "password", nullable = false) private String password; and in your implementation of UserDao: List users = userRepository.findAll(); Map usersmap = new HashMap(); for(User user : users) { user.setPassword(pass); usersmap.put(user.getName(), user.getPassword()); } Diabetes self-management education and medication management: a partnership approach. Because patients with type 1 and type 2 diabetes will not spontaneously attain the clinically important goal of glycemic control, a partnership approach to diabetes management that uses mutual acceptance is proposed. Education consists of patient education, self-care instruction, and continuous medical education that emphasize the ability to self-manage diabetes, including decisions regarding medication, physical activity, diet.
